TABLE OF CONTENTS

Electronics & Automation

01 **Nguyen Van Khoi, To Ba Thanh, Bui Van Tuan** **3 – 12**
Simulation of 6DOF motion control loop of three-channel flight device.

02 **Dao Huy Du, Nguyen Thanh Tung, Vu Ngoc Kien, Ho Mau Viet, Hoang Van Ta, Trieu Viet Phuong** **13 – 22**
Developing new model order reduction algorithms to enhance the efficiency of large-scale electrical and electronic circuit simulation: Mixed Balanced Truncation and Riccati–Lyapunov Mixed Balanced Truncation.

03 **Tran Thi Nhung, Nguyen Trong Khuyen, Nguyen Hoang Tien** **23 – 31**
A method of profile control applied in laser technology.

04 **Vu Minh Thanh, Luong Van Trinh, Luu Duc Tho, Phung Ngoc Son** **32 – 38**
A design of Archimedean spiral antennas applied in passive radar.

05 **Tran Thai Duong, Do Duc Manh, Nguyen Chi Nhan, Le Duc Thinh, Nguyen Tung Lam, Nguyen Danh Huy** **39 – 46**
Reinforcement learning based - sliding mode control for trajectory tracking of quadrotor unmanned aerial vehicle under disturbances.

06 **Ho Si Duong, Nguyen Trong Khuyen, Nguyen Thi Le Quyen** **47 – 55**
A method for determining look-angle stability parameters for VSAT control systems installed on ships with a non-orthogonal axis system.

07 **Vu Le Ha, Nguyen Manh Cuong, Phan Hong Minh** **56 – 63**
Improved performance of sonobuoys based on open source RISC-V SoC microprocessor technology.

08 **Cao Minh Tri, Nguyen Khanh Son, Nguyen Van Kiem, Nguyen Truc Tra** **64 – 71**
Research and implementation of the Kalman filter in 3D radar target tracking.

Chemistry, Biology & Environment

09 **Le Minh Tri, Truong Tung Khuong, Pham Hong Thach** **72 – 80**
Research on the fabrication of composite materials based on unsaturated polyester resin matrix and modified rice husk reinforcement.

10 **Pham Hong Tuan, Nguyen Van Linh, Le Anh Kien** **81 – 87**
Decomposition of methyl orange by Heterogeneous Electro-Fenton technology using ferrimagnetic oxide on activated carbon support as the catalyst.

11 **Ngo Minh Tien, Dao Thi Lan Huong, Nguyen Thi Thoa, Nguyen Van Chanh, Nguyen Thi Hoai Phuong** **88 – 94**
Research on the steel corrosion inhibition of green tea leaf extract in a simulated sea water environment.

12 **Vo Thi Kieu Anh, Nguyen Van Trang, Cao Thi Hong, Nguyen Thi Xuyen, Nguyen Trung Huy, Do Quang Tham, Luu Van Huyen** **95 – 101**
Green synthesis of nano CeO_2 using *Cleistocalyx operculatus* leaf extract.

13 **Nguyen Quang Huy, Nguyen Cao Tuan, Nguyen Dinh Hung, Pham Viet Anh, Nguyen Thi Thu Huong** **102 – 109**
Synthesis of MIL-101(Cr) metal-organic framework material and research photocatalytic capability of material for nitrate removal in water.

Physics & Materials science

14 **Nguyen Thi Mai, Phung Thi Thu, Ngo Thi Lan, Nguyen Thanh Tung** **110 – 116**
Geometries and thermodynamic stability of $[Mo_3Se_{13}^{2-}]$@TM (TM = Sc-Ni) clusters: A theoretical investigation.

15 **Nguyen Hoang Tung, Le Van Long, Nguyen Thi Mai, Bui Xuan Khuyen, Nguyen Thi Giang, Nguyen Nhat Linh** **117 – 123**
Optical characterization of 2D heterostructure MoS_2/WS_2 using spectroscopic ellipsometry.

16 **Le Vu Nam, Pham Dinh Quy, Tran Tien Bao** **124 – 130**
A method of calculating spectral characteristic applied to optimize the thermal imaging system design.

Information technology & Applied mathematics

17 **Doan Thi Bich Ngoc, Nguyen Dao Truong** **131 – 139**
Developing a digital signature scheme avoids attacks based on the order of the generator element.

Mechanics & Mechanical engineering

18 **Mai Duy Phuong, Bui Dinh Tan, Duong Quoc Viet** **140 – 147**
A study on developing a computational model for determining the operating parameters of a dual-flow solid rocket engine.

19 **Nguyen Tuan Dung, Tran Anh Vang** **148 – 154**
Solution for suppressing viscoelastic creep in cylindrical dielectric elastomer actuator.

20 **Do Quoc Vi, Do Van Minh, Tran Van Doanh, Nguyen Trang Minh** **155 – 166**
Internal ballistics model of recoilless weapons with moving high-pressure chambered.
